

BULLION PRODUCTS

A WORLD FIRST

Another first for the Royal Canadian Mint and the world: a stunning 100-kg, 99999 pure gold bullion coin with a \$1 million face value. This coin boldly celebrates the technical expertise, craftsmanship and can-do spirit that have always propelled Canada and the Royal Canadian Mint to new heights of achievement.

Why did the Royal Canadian Mint make the world's purest and largest gold bullion coin? Because we can.

BULLION PRODUCTS

A SYMBOL OF INNOVATION, INGENUITY AND EXCELLENCE

The Royal Canadian Mint has once more raised the bar in the world of gold bullion products. Crafting a bullion coin to surpass all others was an imposing challenge for our engineers—one which they answered brilliantly. Each step along the way required great care, skill and meticulous testing. This coin embodies the artistry, innovation and technical expertise of the Royal Canadian Mint. Featuring a new, hand-polished maple leaf design, this 100-kg piece of Canadian pride is truly worth its weight in gold.

SPECIFICATIONS

WEIGHT IN TROY OZ. (GUARANTEED*)	WEIGHT (KG)	PURITY	DENOMINATION (CANS)
3215	100	99999	\$1,000,000

* The Royal Canadian Mint guarantees the weight of every coin.

DEFINITION OF 99999 PURITY

Gold (Au) which is 99.999% pure is defined as having a sum of less than 10 parts per million of the following elements: Ag, Al, As, Bi, Cr, Cu, Fe, In, Mg, Mn, Ni, Pb, Pd, Pt, Sn, Si, Ti, Zn, and Zr. This refers to the bulk material below the coin surface.
